

# JOINTLY ORGANIZED BY

**The Asian Association of Sugar Cane Technologists'  
and  
U.P. Cooperative Sugar Factories Federation Ltd.  
Lucknow**

## WEBINAR-2021

04th September, 2021

### **Remedial measures to bring down cost of production of plantation white sugar producing mills - latest development**

Cost of production of sugar in plantation white sugar producing mills is of paramount importance. For sugar mills, reduction in the cost of production is directly linked to recovery percentage, capacity utilization, steam consumption, power saving, manpower, store inventory, etc. Keeping in view the importance of this topic, The Asian Association of Sugar Cane Technologists' has decided to hold a Webinar in association with The U. P. Cooperative Sugar Factories Federation Ltd. on 4th September 2021. The Hon'ble Shri Sanjay R. Bhoosreddy, Additional Chief Secretary, Sugar Industry and Cane Development, Govt. of U.P. has kindly consented to be the Chief Guest on this occasion. The webinar will be addressed by keynote speakers on the above topic. The timing of the webinar will be from 11:00 AM onwards on 4th September 2021 and details of program will be communicated later on.

Therefore, we request to all sugar technologists', sugar engineers, all stakeholders of sugar industry to participate in this webinar and get benefitted from the deliberations. There is no registration fee required to participate in the above event. Please click on the registration link given below to participate.
